Experience

Safety Tech

Brignais, France

Image processing and engineering apprentice

 $Sept \ 2022 - Now$

- \circ Integrated classical image processing and an AI model to track the end of a truck trailer in real-time using **Cuda** and **OpenCV**
- Worked with embedded systems through serial and ssh, flashing and cross-compiling C++ written embedded software via **Docker** and **CMake**
- o Implemented several Gitlab CI/CD pipelines for automated building, testing and deployment

NTNU Gjøvik

Gjøvik, Norway

Image processing for detection and tracking intern

Aug 2024 - Oct 2024

- Trained and evaluated EfficientDet and YOLOv8 for animal detection in pens via Ultralytics and TensorFlow
- Implemented a **Barlow Twins** optimization algorithm for self-supervised learning on the EfficientDet model

Education

Télécom Saint-Étienne

Saint-Étienne, France

Master's degree in Image Processing and Photonics

Sept 2022 - Now

- Relevant coursework: Deep Learning (in Python), Image Processing, 3D Imagery
- o Relevant information: Apprenticeship with Safety Tech in Brignais, France

Université du Québec à Chicoutimi

Chicoutimi, Canada

Exchange semester in Computer Science

Jan 2022 – May 2022

• Relevant coursework: Calculus II, Data Mining (in Python)

Université Clermont Auvergne

Clermont-Ferrand, France

Associate's degree in Computer Science

Sept 2020 - July 2022

• Relevant coursework: OOP, C++ programming, Advanced algorithms

Skills and Technologies

Languages: French (native), English (C1, TOEIC 990/990)

Technical Skills: C, C++, Computer Networking, Machine and Deep Learning in Python (Ultralytics, TensorFlow), Web programming, Image processing, SCRUM project management

Interests: Technology Trends, Video Games, Travelling, Cinema
